The Market Showed Little Enthusiasm Yesterday and No Change.

ADVANCE IN PRICES CEASES

London Gave Some Upward Impulse to Prices Early in the Day.

(By Associated Press.)

NEW YORK, June 5.—The light speculation for an advance in prices which was in evidence yesterday was somewhat discouraged to-day and gave little show of enthusiasm. The poor market afforded for taking profits yesterday afternoon served to discredit the upward movement. served to discredit the upward movement.
London gave some upward impulse to
prices early in the day and took stocks
up here until they reached the London
parity, when the foreigners turned sellers
again. London was said to be somewhat
disappointed over the failure to reduce
the discount rate of the Bank of England. the discount rate of the Bank of England. But the statement of the bank left no room for anxiety over the financial situation in London, the \$2,000,000 buillon increase being accompanied by a loan contraction of over \$14,000,000, bringing the proportion of reserve to liability to over 50 per cent. At the same time the Bank of France showed a further rise in its gold holdings of over \$7,500,000, with a reduction of over \$25,000,000 in its bills discounted. The result is something like a duction of over \$23,000,500 in its finis dis-counted. The result is something like a rebundancy of capital at the great finan-cial centers of the world with a corre-sponding apathy of speculative and even of investment demand, which seems to point to a world-wide cause. Here in New York the balt in the advancing tendency of prices threw the market back into an apathetic condition.

There was some investment absorption

of well secured bonds, but weakness of well secured bonds, but weitness bemongst speculative issues made the price movement irregular. Total sales, par value, \$1,080,000. United States 2s declined 1-i per cent. on call.

The total sales of stocks for the day were 142,000 shares.

Futures were steady at the opening with prices 1 point higher to 3 lower than yeater-day's closing. New York was firmer and gave strength to the local market. Soon after the opening the bull leaders became haevy buyers of July, and their purchases sent that option skyward. Some little covering by shorts in the winter months sent those positions up, but heavy profit-taking by those who had bough. It was not steady and the result of more short sellers. Later in the day there was another upward turn, which the day there was another upward turn, which carried prices to within a point or two of the highest levels of the season. In the trading July advanced 25 points above the closing of yesterday at 11.72, declined to 11.54 and finally recovered to 11.70. The market closed firm with net gales of 22538 points on the old crop months and 17629 on the new.
